## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 32-34 are rejected under 35 U.S.C. 102(b) as being anticipated by Swanson et al. (6,183,468). Swanson et al. disclose a system comprising :  
a processor (102) with a memory configured to store a plurality of code modules (algorithms) for delivering energy to raise a temperature of tissue to a first target temperature followed by a dwell time and then to a second temperature for a second dwell time; wherein the system comprises a power supply (106) coupled to the processor and further comprising an applicator (108) coupled to the power supply (Figure 2, col. 6, lines 23-65 and Figure 13, col. 19, lines 27-42).

### ***Allowable Subject Matter***
